

About Us

Driven by a passion for design and a determined commitment to excellence, our multidisciplinary team merges contemporary aesthetics with functional advantage. We recognize that every project is unique, and our approach is tailored to the specific needs, dreams and aspirations of each client.

OPROPO adds one more step to take your creation from great to a master piece.

Mission

Our mission is to create exceptional homes that exceed our client's expectation providing them with the perfect living spaces to build cherished memories.

Vision

Our vision is to be recognized as the premier real estate consultant company, setting the standard for excellence in the industry. We strive to be the go-to choice for individuals and families seeking to bring their dream homes to life.

Core Values

Integrity: We conduct our business with the utmost honesty, transparency and ethical standards.

Quality: We are committed to delivering homes of the highest quality We pay meticulous attention to every detail to ensure exceptional results.

Customer Focus: Our clients are at the heart of everything we do. We listen attentively to their needs, desires & we strive to exceed their expectations in every aspect of the building process.

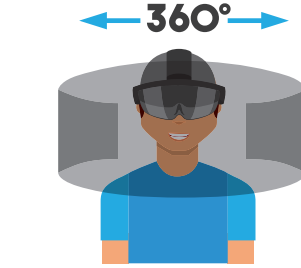

Innovation: We embrace innovation and constantly seek new ways to enhance our designs, construction methods and sustainability practices.

Why Choose OPROPO ?

What We Do :

360/Virtual Reality Tours

Dive into a comprehensive and immersive experience with our 360-degree virtual home tours, letting you step into spaces from the comfort of your own device.

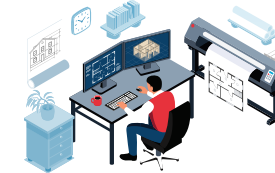

Project Management

This encompasses managing the entire process from conception to completion

Interior Design

We also offer interior design services, ensuring that the building's interior complements its architectural style.

3D Modeling and Rendering

Advanced visualization services using software to create 3D models, animations and photo-realistic renderings of the proposed design.

Construction Documents

These are detailed drawings and specifications that builders use for construction. They are also used to secure building permits.

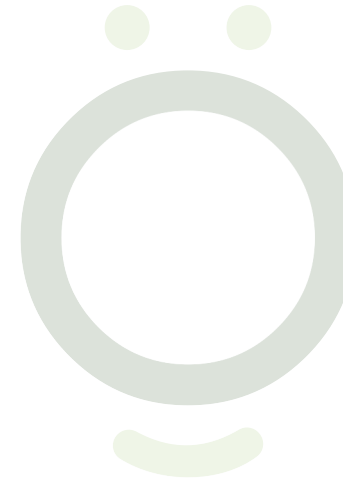

Sustainability & Green Design Consulting

With the increasing importance of sustainable design, we offer consultation on how to make projects more eco-friendly, energy-efficient & sustainable.
